

Marion Environmental, Inc. – MEI Monthly

DECEMBER 2017

VOLUME # 6 ISSUE #12

Profile of the Month – Michael Emery

Our Nashville team is brimming with experienced personnel and Michael Emery is a prime example. With a degree in Environmental Science & Technology and over 20 years in the industry, his clients benefit from decades of experience and knowledge on each and every project.

His perspective helps clients achieve regulatory compliance while keeping costs minimized. Utilizing his chemistry background, he is uniquely capable of advising clients about some of the more technical aspects of waste management. His guidance is specific and practical.

We are very lucky to have this reliable and competent professional on our team.

Marion Environmental Inc. is one of the leading providers of environmental consulting, remediation, and emergency response in the southeast. Our goal is to provide cost effective solutions to environmental problems.
Making *our* standard, industry standard.

CLEAN GULF Conference – Houston, TX

From left: Mike James, Steve Wright, “Safety” Sam Taylor, & Drew Thomason

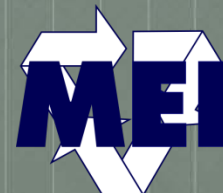

Representatives for Marion Environmental recently took a trip to Houston TX for the CLEAN GULF 2017 Conference & Exhibition, an event centered around the latest in spill prevention, disaster preparedness, and emergency response. It was a great event, attended by a wide range of industry leaders from many fields and many regions around the country, on both sides of the ER relationship.

Our guys had a great time meeting new people and greeting old friends, as well as discussing MEI’s growing contributions to our ever-changing industry. We look forward to next year’s CLEAN GULF conference.

St Louis, MO
- May 16-18, 2018 Environmental Show of the South
Chattanooga, TN

Safety Tip Winter Walking Tips

1. In cold temperatures assume all wet areas are icy.
2. Wear footwear that provides traction.
3. Walk in designated walkways; ice and snow may be more prevalent on unused shortcuts.
4. Keep your hands free to help with balance.
5. Concentrate on walking, don't multitask.
6. To walk on ice: bend slightly forward and spread your feet out to lower and increase your center of gravity, take small steps and shuffle, and go slowly. Walk like a penguin.
