APRIL 2013

VOLUME # 2 ISSUE #4

Employee of the Month – Sue Hartline

## SUE HARTLINE IS EMPLOYEE OF THE MONTH FOR APRIL 2013

At the helm of Marion's accounting department is Sue Hartline. She is the heart of our corporate office and has fulfilled this role for the last 17 years. She manages the billing and the payroll. She interacts with and cajoles employees into filling out their paperwork properly. She analyzes all aspects of our accounting procedures and recommends ways to improve efficiencies.

Marion's diversity presents complexities on invoices, and Sue relishes the challenge. Detail oriented, she can ferret out any missing piece of an invoice. We call her "Sherlock" because she loves a challenge and tirelessly tracks down missing information. We are lucky to have Sue and would be lost without her.

Marion Environmental Inc. is one of the leading providers of environmental consulting, remediation, and emergency response in the southeast. Our goal is to provide cost effective solutions to environmental problems.

Making *our* standard, industry standard.

## Events

42<sup>nd</sup> Annual Solid/Hazardous Waste Conference – "Environmental Show of the South"

April 24-26 in Gatlinburg, TN

Marion has been attending the Solid/Hazardous Waste Conference and Exhibition for many years. As one of the largest conferences of its kind in the Southeast, the "Environmental Show of the South" presents a unique opportunity to not only discuss and stay-up-to-date with the latest trends in environmental consulting and management, but also to confer with Tennessee state and local regulators and lawmakers about the newest policies to affect our industry in the years ahead. Stop by Marion's exhibition booth in the Gatlinburg Convention Center to learn more, or to just say "Hello." We hope to see you there!

*Chattanooga Lookouts* – Spring is here, which means warmer air, brighter evenings, and, perhaps most importantly of all, the start of baseball season! On April 27, as has become tradition, Marion will be throwing the opening pitch and sponsoring a cookout on the home field side as the Chattanooga Lookouts host the Jackson Generals. Marion has been a proud sponsor of the Lookouts for the past 5 years, and this family-friendly cookout has been a great way for our employees and their families to get together and unwind, all while taking in America's favorite pastime. We appreciate all of the hard work our employees do, day-in and day-out, and this is just one small way we like to say "Thanks."

VOLUME #2 ISSUE #4

*Movie stars* – The upcoming feature film “42” about baseball legend, Jackie Robinson, was filmed on location in Chattanooga at historic Engel Stadium. Marion Environmental was contracted to clean and restore large parts of the facility prior to filming. Our technicians worked tirelessly to make sure such an important landmark was ready for its feature film debut, and the final results really show on screen. We couldn’t be prouder of the work our guys did out there.

## THIS SPRING:

Marion is a corporate sponsor at the Boys & Girls Club Annual Fundraising Dinner on Thursday, April 25<sup>th</sup> in Chattanooga, TN.

Marion is proud to once again participate in the Industrial Golf League of Chattanooga this Spring.

## SAFETY TIP

*Know your pH* – On the surface, it’s a simple numerical scale, 0 – 14, but it has important implications, both for the safe handling of substances and how they are regulated by federal statutes. A Ph of 7 is considered neutral, while readings above and below that are considered basic and acidic, respectively. When a substance is either measured at or less than 2, or at or above 12.5, it is considered hazardous/corrosive according to the EPA-RCRA Hazardous Waste Identification characteristics.
